

Project Demo Planning

Date	3 July 2026
Team ID	—
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the difficulty learners face in expressing and getting timely support for their emotional state while studying	2	Member 1
2	Project Overview & Architecture	Present system architecture, technologies used, and workflow	2	Member 1
3	Emotion Classification Demo	Demonstrate emotion prediction on sample learner inputs using BiLSTM & BERT models	3	Member 1
4	Gemini Guidance Generation Demo	Show personalized tips, next steps, and encouragement generated by Gemini AI	2	Member 1
5	Technical Implementation	Explain the Streamlit frontend, Python backend, keyword enhancement logic, and interaction logging	2	Member 1
6	Results, Future Scope & Conclusion	Present outcomes, limitations, future enhancements, and conclude	2	Member 1

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why learners need emotion-aware support while studying
2	Solution Overview	Describe the platform's architecture, workflow, and technology stack
3	Live Feature Demonstration	Predict emotion, generate personalized guidance, and show the analytics dashboard in real time
4	Q&A Session	Answer evaluator questions and discuss future enhancements
